

20 successful years of  
PURITY & SUSTAINABILITY

**PRIMEGOLD**

304 & 316L WATER PIPE & TANK

Superior Quality of stainless steel  
grades to manufacture PRIMEGOLD PIPE & TANK

**PRIMEGOLD INDIA LIMITED**

## ABOUT US

Under the dynamic leadership of Mr. Pradeep Aggarwal, CMD Primegold Group starting a new generation in manufacturing, marketing and distribution of infrastructure & construction related products, which today has become a benchmark in the Indian Industry. Primegold Brand launched in 2008 works with an aim to decentralize the production base of Steel, Cement & related products and S.S. Water Pipes & fittings. In addition to this, the Group is manufacturing/ marketing **PrimeGold Stainless Steel Water Tank** through strategic tie-ups/JVs with manufacturing units all over the country and convert the same into Primegold brand through technological upgradation, thereby making quality product available locally at the best prices. Delivering the products, services and satisfaction as per commitments with remarkable quality, dedicated management workforce has resulted in constant expansion of the business. The product is available in 8 states and is fast expanding its reach to other parts of the country. The Primegold Group has a vast distribution network of 4500 Dealers/Distributors/Stockists.

**Inner Layer** Standard 316L Surgical Stainless Steel with higher levels of Chromium and Nickle

**Second Layer** Insulated climate control coating Section.

**Third Layer** Fire & Lightening retardant thermal insulation.

**Fourth Layer** High bonded density P.U. foam for thermal resistance.

**Fifth Layer** U.V. blocking fibrous insulation prevents heat transmission through convection.

5 LAYERS

**Sixth Layer** AEROLAM heat insulation confirms to class 1 for surface spread of Flame Characteristics.

**Seventh Layer** Wrap around with rigid 304 Austenitic stainless steel

7 LAYERS

## TECHNICAL SPECIFICATION

Capacity (Ltr)	Diameter (mm/inch)	Height with stand (mm/inch)	Inlet Fitting (Inch)	Over Flow (Inch)	Outlet Fitting (Inch)	Drain (Inch)
500	1070/42	1170/45	1	1	1	1
1000	1070/42	1830/72	1	1	1.5	1.5
1500	1360/54	1900/75	1	1	1.5	1.5
2000	1530/60	2010/79	1	1	2	2
5000	1700/67	3300/130	1.5	1.5	2	2

## TITANIUM

The Titanium Series PrimeGold SS Water Tanks offer a reliable, intelligent, and long-term solution for water storage, providing peace of mind and improved water quality.

**Stainless Steel 316 and 316L has | 16.5-18% Chromium | 10-13% Nickel | 2-3% Molybdenum | 2% Manganese.**

**1.0 MM STEEL THICKNESS**

**07 YEARS  
WARRANTEE**

## CHROMIUM

The Chromium Series PrimeGold SS Water Tanks represents the pinnacle of excellence in water storage solutions, offering unparalleled durability, perfect balance, and exceptional quality. Product having 5 or 7 standards layers, the construction process entails a high level of complexity. Consider it a family heirloom for life.

**Stainless Steel 316 and 316L has | 16.5-18% Chromium | 10-13% Nickel | 2-3% Molybdenum | 2% Manganese.**

**1.5 MM STEEL THICKNESS**

**10 YEARS  
WARRANTEE**

## VANDIUM

The PrimeGold Vandium stainless steel tank is a masterpiece of engineering, showcasing exceptional hardness, clarity, and sparkle. This premium product is designed to provide the highest level of safety, security, and purity, making it an ideal choice for discerning consumers.

**Duplex Stainless Steel 2205 has | 20-28% Chromium | 2-5% Molybdenum | 5-8% Nickel**

**1.5 MM STEEL THICKNESS**

**12 YEARS  
WARRANTEE**

## OSMIUM

The PrimeGold Osmium is a game-changing, industry-first stainless steel water tank that boasts an astounding thickness, ensuring unparalleled durability and protection. This battle-tank-like water tank is designed to provide a lifetime of pure, hygienic water for the entire family.

**3 to 4 MM STAINLESS STEEL THICKNESS BASE  
+ 100 MM INSULATION**

**30 YEARS  
WARRANTEE**

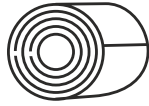

## FEATURES

### 100% PURE & SAFE

Perfect safe & clean storage of water

### ZERO DEGRADATION

Impact fire and corrosion resistant

### CLIMATE RESISTANT

Do not expand or contract depending on external climatic temperatures

### FIT & FORGET

Long lasting up to 50 years with minimal maintenance

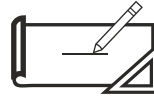

### REFLECT UV RAYS

Zero absorption of heat

### MOBILITY

Easy to move just like your TV dish antenna

### CUSTOMIZED

Customized specialised coating finishes to augment their rust resistance

### NO LEAK

Sealed with no joints

### GERM RESISTANT

Sealed interiors do not breed algae

### ECO-FRIENDLY

Can be easily recycled preserves & protects environment

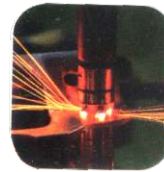

### NO LIMIT CAPACITY

Fabricated to higher capacity

## PRIMEGOLD IS FAR SUPERIOR THAN COMPETITOR STEEL TANK

**Stainless Steel** : We are using India's best quality Stainless Steel i.e. 'Jindal' to manufacture PrimeGold Water Tank.

**Welding Electrodes** : We use Stainless Steel continuous welding electrodes which carry more heat thus weld evenly and smoothly with no disjoints.

**Laser Welding** : Our state-of-the-art laser welding process utilizes high-end Eurolaser German machines, valued at over 1 crore. This cutting-edge technology ensures:

- \* Seamless welding: Continuous welding creates a leak-proof joint.
- \* Corrosion resistance: Welded joints retain corrosion-resistant properties.

**Thickness Steel Delivered** : We guarantee thickness and send you a report validating the claim before fabricating your tank.

**Tank Accessories** : Our accessories are made from pure brass which is more solid and heavier material and are welded with our high-end massive laser machine thus ensuring zero leakage from joints and long life for the parts.

**Tank Top & Bottom covers** : Our tank has thicker Stainless Steel sheet base and top cover leading to greater durability & long life.

**Water test bed** : Each and every stainless Steel tank is tested for 24 hours in a test bed for full continuous water pressure and gravity to identify leaks if any before dispatch to customers.

**PU Puff Insulation** : Users only imported PU PUFF from Germany which hardens to be water proof and temperature proof.
